

SOS! Save Our Sanford (Fire Truck)

The Hampton Historical Society and the Professional Firefighters & Fire Officers of Hampton L-2664 have teamed up to save Hampton's first motorized fire pumper—our town's 1923 REO Sanford pumper! Your personal paver brick will guide children, teenagers, firefighters, tourists and adults of all ages into a new addition of the museum to preserve this Sanford pumper. Each brick costs \$125, with \$100 from each brick going to help finance an addition to the current Seacoast Fire Museum. We depend on our community to keep our historical legacies alive so that each of us can experience the gift of lifelong learning.
